Warm Welcome to our Argentina Frost Analyst Pamela!

Pamela Bruno is our newest Frost protection analyst. Pamela is a graduate of Universidad Nacional de Cuyo, Argentina, holding a graduate degree in Agronomic Engineering, and has extensive experience in crops research. A citizen of Italy and Argentina, she speaks Spanish, Italian, French and English. She will be heading up our new office in Mendoza, Argentina.

Winner of WIN Innovation Award: Shur Farms Hot Spotter

Shur Farms Frost Protection® is excited to announce the launch of the Hot Spotter, winner of the 2013 WIN innovation award and a new concept in managing cold air accumulation that eliminates the need for expensive full size frost protection in small areas. Just locate your hot spot, place the Hot Spotter in a convenient location, plug it in, and turn it on!
